## Praise from Clients

Extracted from LEFPA Newsletter Issue 76 dated May 2022.

### Phase 2 Done and Dusted

Moving and renovations rank high up on the list of unpleasant, stressful experiences for homeowners and it's no picnic (probably worst) for businesses. Which is why we are giving a massive sigh of relief at the end of the Operations Centre and Dispatch renovations and can look forward to starting the fire season in our shiny new premises.

Three cheers for Terence de Klerk and his team from Second Generation Construction for a job well done, LEFPA highly recommends them for their professional performance and friendly service.
